ABOUT TOZZER

Tozzers made his first appearance in *Tozzers and the Invisible Lap Dancers*, an irreverent parody of all things Hollywood. The critically-acclaimed *Tozzers 2* mini series followed in 2004. The collected volume, *Tozzers 2: Special Edition*, has been given a full-colour face-lift by top colourist Eric Erbes. *Comics Nexus* describes it as “one of the most professional comics to have been published by the British Independent Comics scene”.

In *Tozzers 2: Special Edition*, the biggest stars in Hollywood are cut down to size, and movies such as *Star Wars* and *The Matrix* get a satirical pummelling. Creators Rob and Pete show no mercy, yet there’s always a good laugh behind their cruel jibes.

Tozzers 2: Special Edition is published by Ablaze Media. ISBN 0-9543008-1-5
